Cast Iron Piston Compressors

Advanced reliability in
compressed air

TECHNICAL FEATURES

Strong and robust technology

- Robust, cast iron, single stage pumps designed according to regional specific needs. Low rotation speed and long lifetime.
- Improved cooling with copper outlet pipe, cast iron flywheel, cylinder head with deep cooling fins.
- High quality materials used for the pumps components: cast iron shaft, conrod and cylinders, stainless steel valves.

User comfort

- High quality pressure switch on all units, filter-regulator and panel with quick-coupling connections on single phase units.
- Oil sight glass on the pump to check oil level. Single phase units are equipped with rubber wheels and rubber feet for better stability.

Minimized risk using original parts

- Specially defined preventive and regular maintenance kits and single parts, easy access to documentation.
- Oil with a unique formula for cast iron pump technology prevents components wear and improve cooling.

1 Cast iron pump

2 Oil sight glass

3 Pressure switch

4 Big metal wheels

5 High-efficient motor

6 Metal beltguard

7 MOM, ASME or CE certified vessel

8 Air filters

Cast Iron Piston Compressors

- A high quality product offering you [technology you can trust](#).
- Our products are [easy to use](#) and guarantee high [reliability](#).
- Distributors are always nearby ensuring [availability](#) of both products and support.
- Choosing our high performance products entails a [partnership](#) that will boost your business.
- Safeguarding long-term productivity through optimal [serviceability](#) and use of original parts.

Care. Trust. Efficiency.

Care.

Care is what service is all about: professional service by knowledgeable people, using high-quality original parts.

Trust.

Trust is earned by delivering on our promises of reliable, uninterrupted performance and long equipment lifetime.

Efficiency.

Equipment efficiency is ensured by regular maintenance. Efficiency of the service organization is how Original Parts and Service make the difference.
