

Solid, simple and smart:
advanced reliability in compressed air

BLUELINE & BELTAIR PRO PROFESSIONAL PISTON COMPRESSORS

BLUELINE/ BELTAIR PRO

Whether you are a professional or a DIY enthusiast, you want your piston compressor to be easy to use, easy to move and always reliable. The BLUELINE and BELTAIR PRO ranges from Ceccato give you all of these qualities... and much more. Powerful and efficient, the BLUELINE and BELTAIR PRO are the get-it-done compressors for occasional and frequent pneumatic jobs.

Powerful

- Strong, reliable pump with a long lifetime
- High-efficiency motor
- Large flywheel for optimal cooling

Easy to move & use

- Compact and lightweight design
- Anti-vibration pad under front feet
 - Strong rear wheels
- Easy oil check and refilling

Compressed air made easy

The BLUELINE and BELTAIR PRO are designed to simplify your life. From their compact size and excellent mobility to their outstanding ease of operation, both series make producing compressed air effortless. We also put special emphasis on safety to ensure that you are protected and comfortable when operating your BLUELINE and BELTAIR PRO.

Made to last

Workshops rarely offer ideal conditions for machinery. They can be dusty and dirty, which is why you need a compressor you can depend on. That is why we built the BLUELINE and BELTAIR PRO extra tough. With CE-approved and certified components, a high-efficiency motor and a durable pump with a long lifetime, your Ceccato piston compressor will serve as a trusted companion and give you many years of dependable performance.

A complete range

BLUELINE (10 bar; 27-90L)

The BLUELINE series is built for DIY users who need compressed air only occasionally. This single-stage belt-driven piston compressor is mounted on a small tank.

BELTAIR PRO (10 bar; 27-200L)

The belt-driven, single-stage BELTAIR PRO is a great solution for small workshops. Its outstanding reliability, combined with low noise levels, allows it to deliver a strong performance when and where needed.

BELTAIR PRO (11 & 15 bar)

The BELTAIR PRO is a two-stage compressor that offers professional users higher performance, air flows and pressures. The 11-bar version is ideal for higher power production purposes. The 15-bar compressor is an excellent solution for high-pressure applications.

A flexible offer

Avid hobbyists have very different compressed air needs than professional workshops or small production facilities. By offering different models, sizes and configurations, Ceccato makes it easy to find the BLUELINE or BELTAIR PRO that is the optimal fit for you.

• Mobile and stationary units available

• Choose between vertical and horizontal receiver tanks of different sizes (27-500 liters)

• Power ranges from 2-15 hp

• Low and high-pressure variants

BLUELINE (10 BAR; 27-90L)
**THE DEPENDABLE
 COMPRESSOR FOR DIYERS**

- 1 Proven, reliable pump gives you a long compressor lifetime
- 2 Easy unit control thanks to a pressure-reducing cap with pressure gauge
- 3 Front wheel ensures effortless maneuverability
- 4 Sturdy belt guard safeguards operators by protecting all moving parts
- 5 Long aftercooler pipe achieves better air cooling performance
- 6 A compact and lightweight design makes it easy to use and move

BELTAIR PRO (10 BAR; 27-200L)
**THE FLEXIBLE
 COMPRESSOR FOR
 PROFESSIONALS**

- 1 Air outlet with quick coupling and integrated condensate separator
- 2 Robust metal belt guard protects all moving parts and ensures user safety
- 3 Cast iron cylinder
- 4 Easy oil check and refilling
- 5 Durable pump with low rotation speed
- 6 Mobile up to 270 liters
- 7 Large ventilation fan
- 8 Mono- and three-phase motors

MOBILE UNITS

BELTAIR PRO (11 & 15 BAR)
**A TOP PERFORMANCE
 COMPRESSOR FOR
 PROFESSIONALS WITH
 HIGH DEMANDS**

- 1 Cast iron cylinder offers durability and reliability
- 2 Three-phase motor
- 3 Large ventilation fan improves cooling performance
- 4 Suitable for high-pressure applications (e.g. HGV or tractor tires)
- 5 Robust steel belt guard
- 6 Condensate separator with two quick couplings for usage flexibility
- 7 Strong rear wheels ensure easy transport
- 8 Two front pivot wheels with brakes offer better maneuverability

STATIONARY UNITS

- 1 Increased lifetime and lower noise levels thanks to large, twin-stage pump with low rotation speed and large oil crankcase
- 2 Sound-insulating, heavy duty inlet air filter offers an improved, quiet performance
- 3 Large capacity tank stores more air and allows the BELTAIR PRO to handle more demanding applications
- 4 Cubicle with main switch and star-delta starter reduces current peaks
- 5 High-quality pressure switch guarantees smooth operation in any conditions
- 6 Fast and simple condensate drain
- 7 Easy to service and low maintenance costs

A twin-stage piston pump allows the BELTAIR PRO to reach a maximum pressure of 15 bar, which is important for applications such as HGV/tractor service stations. The 15-bar model with a vertical receiver is also the ideal solution for customers with limited floor space because the higher pressure allows you to store more air.

CARE

Care is what service is all about: professional service by knowledgeable people, using high-quality original parts.

TRUST

Trust is earned by delivering on our promises of reliable, uninterrupted performance and long equipment lifetime.

EFFICIENCY

Equipment efficiency is ensured by regular maintenance. Efficiency of the service organization is how Original Parts and Service make the difference.
